

Grassobbio, December the 10<sup>th</sup> 2019

Dear,

for every year that ends, a new one is about to begin.

And so it has been for 75 years: in facts, in 2020 we will celebrate the 75<sup>th</sup> founding anniversary of Allegrini company.

During all these years, we carried on the opera of our father Giacomo, with the same passion and enthusiasm in realizing always-new solutions and opportunities.

A temporal continuity that founds in strategies, in our historical management capacity and in all the different challenges and projects.

Many of them are just in mind, others are under way, and many others will be developed in the next future, but all of them have in common two fundamental values: tradition, that illuminates the path, and innovation, that keeps the flame alive.

During this route, we must never forget some fundamental responsibilities: the respect for the work of all our 150 collaborators, the environment, a theme this way heartfelt as never before, and of course the company wellbeing.

For our company, awareness is the first step: every day we work and develop ambitious but always coherent projects.

It is in this way that Allegrini 2019 is ending, an year in which many investments, developments and collaboration have been carried on, confirming day after day as a family reliable partner.

For every year that ends, a new one is about to begin, and 2020 will carry all the added value of these 75 years of company history.

Merry Christmas and Happy New Year,

Maurizio Allegrini
